RAKHEE JAIN DESIGNS LTD

ECLECTIC, CONTEMPORARY INTERIORS

Rakhee Jain is a London-based designer, curator and multidisciplinary stylist. Born and brought up in a creative home in Calcutta, her inspirations are myriad - in art, travel, theatre, dance, film. She's a firm believer in thoughtful, structured and honest design.

Powered by a unique aesthetic, Rakhee's focus is on turning the mundane into works of art. Her biggest strength is her dedication and focus toward any project she undertakes. A project no matter what its size, has her whole heart, as if it were her very first.

Rakhee is inspired by the transformational capacities of interior design and treasures the responsibilities that a designer carries whilst designing a client's home. The narrative style of her design is detailed, eclectic and full of a muted vigour.

The approach to each project is based on trust with the client and in-depth understanding of their personalities. Rakhee's clients are aspirational and house-proud; they trust her expertise and intelligence to design their spaces to reflect a striking impression of her vision.

From space planning and lighting design to curating each project with the perfect pieces of art, she takes a holistic and detail-oriented perspective to interior design. She specialises in curating lifestyles within beautifully designed homes, carefully selecting artworks and design products to enhance a truly bespoke, designed space.

Her influences are vast and global, so each project is one a kind, with inspired selections of interior accessories, paintings and sculpture. Rakhee is a visionary: she knows what she wants and makes no compromises.
